

ALEKSEY LOVCHIKOV

Senior Frontend Developer

✉ aleksey.lovchikov@gmail.com  github.com/alekseylovchikov  [@jwebbbb](https://twitter.com/jwebbbb)

About Me

Passionate Senior Frontend Developer with 8+ years of experience building scalable web applications. I take full responsibility for tasks and see them through to completion, even when facing new challenges or complex problems. I'm not afraid of difficulties and always conduct thorough research to ensure quality results. My expertise focuses on frontend development with ReactJS, TypeScript, and modern web technologies, complemented by knowledge in backend integration, testing, and performance optimization, allowing me to deliver high-quality user experiences.

Technical Skills

Frontend

ReactJS

Redux

VueJS

AngularJS

NextJS

TypeScript

JavaScript

HTML5

CSS3

SCSS

React Native

Backend

PHP

Laravel

NestJS

ExpressJS

Node.js

RESTful APIs

GraphQL

Golang

Gin

Fiber

GORM

sqlx

context

goroutines

Databases

MySQL

PostgreSQL

MongoDB

Tools & DevOps

Git

Docker

Webpack

Vite

Rollup

Parcel

Storybook

Jest

React Testing Library

Vitest

Playwright

Puppeteer

Selenium

Appium

Postman

Insomnia

Swagger

OpenAPI

Cypress

CI/CD

Professional Experience

Senior Frontend Developer ReactJS/TypeScript

Apicworld ltd, Limassol, Cyprus

2024 - Present

- Developing and maintaining complex ReactJS applications using TypeScript, ensuring type safety and code quality
- Designing and implementing scalable frontend architecture with focus on component reusability, performance optimization, and maintainability
- Building responsive, accessible user interfaces with modern CSS frameworks and ensuring cross-browser compatibility
- Implementing state management solutions (Redux, Context API) and optimizing application performance through code splitting and lazy loading
- Working with RESTful APIs and GraphQL, handling data fetching, caching strategies, and error handling
- Writing comprehensive unit and integration tests using Jest, React Testing Library, and Vitest, achieving high code coverage
- Leading frontend code reviews, establishing coding standards, and mentoring junior developers
- Collaborating with UI/UX designers to translate designs into pixel-perfect, interactive components using Figma
- Optimizing application performance through profiling, bundle analysis, and implementing best practices for React rendering
- Integrating third-party libraries and services, managing dependencies, and ensuring security best practices
- Participating in technical decision-making, architecture discussions, and contributing to frontend development roadmap

Senior Frontend Developer

Mayflower, Limassol, Cyprus

2022 - 2024

- Led development of an innovative AI-first text editor application from concept to production
- Built comprehensive user dashboard and account management system with modern UX patterns
- Collaborated closely with UI/UX designers and backend engineers on architecture design and API contracts

- Developed key application components ensuring high performance and user experience
- Owned entire frontend development strategy and defined technical roadmap
- Implemented comprehensive testing strategies ensuring code quality and reliability
- Worked in agile environment with frequent releases, A/B testing, and continuous product improvement
- Established modern frontend architecture patterns and development best practices

Middle Frontend Developer

Brabens Development, Moscow

2016 - 2022

- Developed administrative panel and user dashboard for traffic exchange platform serving thousands of users
- Implemented complex business logic on frontend ensuring data integrity and user experience
- Actively participated in grooming sessions, sprint planning, and technical decision-making
- Performed task decomposition, estimation, and coordinated with cross-functional teams
- Collaborated effectively with Backend developers, QA engineers, and designers in agile environment
- Championed introduction of new development tools (Cypress, Storybook) improving team productivity
- Created pixel-perfect responsive layouts from Figma designs using SCSS and Styled Components
- Wrote comprehensive unit and E2E tests achieving high code coverage
- Led code refactoring initiatives to improve maintainability, performance, and scalability

Education

Bachelor's Degree in Computer Science

Modern University for the Humanities (SGA), Moscow

Major: Computer Science and Engineering

2008 - 2013

Languages

Russian:	Native
English:	B1 (Intermediate)

Additional Information

- Open to relocation
- Strong problem-solving and analytical skills
- Experience with Agile/Scrum methodologies
- Passionate about clean code and software architecture
- Continuous learner, exploring new technologies
